## Personal Statement

An ambitious and dedicated biology major with a strong passion for Biomedical Engineering and Plant Biotechnology. Currently completing an MSc in Plant Biotechnology at the Cyprus University of Technology, with prior partial completion MSc in Biomedical Engineering from the same university. I am seeking a challenging role in the field of biotechnology where I can utilize my skills and knowledge to contribute to research and development.

## Education

Biology, University of Pecs, Hungary (2017-2022)

Partial completion of MSc in Biomedical Engineering, Cyprus University of Technology (2019-2020)

MSc in Plant Biotechnology, Cyprus University of Technology (Expected Graduation: 2023)

## Experience

Dissertation Researcher, Plant Stress Physiology Group, Cyprus University of Technology (March 2023 -present)

- Collaborating with team members and the research supervisor to design and conduct experiments
- Analyzing data and presenting findings at team meetings

## Skills

- Excellent communication and teamwork skills
- Strong analytical and problem-solving abilities
- Familiarity with laboratory techniques and equipment
